SECTION 2: HAZARDS IDENTIFICATION

Please see Section 3 and 15 for country specific classification information, and Section 11 for additional details.

PRIMARY HAZARDS AND CRITICAL EFFECTS:

Non-Hazardous as supplied

Danger "as used" Thermal Hazard

Precautionary Statements:

Eye: As supplied, irritant as a foreign body. Fumes released during thermal processing may cause eye irritation. Molten adhesive in the eye will cause severe and permanent damage.

Skin Contact: Solid adhesive has no hazards. Molten adhesive may cause severe burns.

Inhalation: Negligible hazard at ambient temperature. Vapors which may be formed at elevated temperatures may be irritating to eyes and respiratory tract.

Ingestion: No hazard in normal industrial use.

This product is considered not hazardous under 29 CFR 1910.1200 (Hazard Communication).

SECTION 3 : COMPOSITION/INFORMATION ON INGREDIENTS

INGREDIENT NAME:	CAS NO.	Conc. (% w/w)
No Hazardous Ingredients	None	None

Note: See section 8 for occupational exposure limits and section 11 for LC50/LD50 information

SECTION 4: FIRST AID MEASURES

EYES:	If eye contact occurs with molten material immediately cool with water. Do not remove adhesive. Seek medical attention.
SKIN:	Molten adhesive may cause severe burns. Cool melted product on skin with plenty of water. Do not remove solidified product. No attempt should be made to remove material from skin or to remove contaminated clothing as damaged skin can be easily torn. Cover affected areas with clean sheeting or gauze and seek immediate medical attention.
INGESTION:	Ingestion of solid adhesive is not expected to be hazardous. If symptoms develop and persist, get medical attention.
INHALATION:	Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. If symptoms develop and persist, get medical attention.

SECTION 5: FIRE FIGHTING MEASURES

FLASH POINT:	>400 ° F
EXTINGUISHING MEDIA:	Use extinguishing measures appropriate to local circumstances and the surrounding environment. Dry chemical. Carbon dioxide.
FIRE FIGHTING PROCEDURES:	Fire fighters should wear positive pressure self-contained breathing apparatus (SCBA). Wear full protective clothing.
FIRE AND EXPLOSION HAZARDS:	None
HAZARDOUS DECOMPOSITION PRODUCTS:	Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

SECTION 6: ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS:	Immediately contact emergency personnel. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Use suitable protective equipment (section 8). Do not touch or walk through spilled material.
ENVIRONMENTAL PRECAUTIONS AND CLEAN-UP METHODS	No special environmental precautions required. Do not allow material to contaminate ground water system. Spilled material will solidify. Scrape up spilled material and place in a closed container for disposal.

SECTION 6 NOTES: See section 1 for emergency contact information and section 13 for waste disposal

SECTION 7: HANDLING AND STORAGE

HANDLING:	Always be careful around molten material. Avoid skin contact with molten resins. Follow suggested application temperature. Do not wear contact lenses. At elevated temperatures, irritating fumes may be emitted. Provide adequate ventilation.
STORAGE:	For safe storage, store between 4 °C (39.2 °F) and 40 °C (104°F)

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING CONTROLS:	Work should be done in an adequately ventilated area (i.e., ventilation sufficient to maintain concentrations below one half of the PEL and other relevant standards). Local exhaust ventilation is recommended when general ventilation is not sufficient to control airborne contamination.
------------------------------	---

PERSONAL PROTECTIVE EQUIPMENT

RESPIRATORY SYSTEM	No personal respiratory protective equipment normally required. Where the potential exists for exposure to decomposition products due to heating or elevated temperatures, wear NIOSH approved respiratory protection as appropriate.
---------------------------	---

EYES	Safety goggles or safety glasses with side shields. Full face protection should be used if the potential for splashing or spraying of product exists. Do not wear contact lenses.
SKIN & BODY	Insulated gloves and long sleeved clothing are strongly recommended when working with molten adhesive.
HANDS	Hand Protection: Wear heat resistant gloves. Replace gloves immediately when torn or any change in appearance (dimension, color, flexibility, etc.) is noticed.
