

750 N. BAKER DRIVE, ITASCA, IL 60143 • 1.800.419.4583 • F: 888.371.8314

Hi, my name is Nick. Welcome to the Chicago Glue and Machine's Maintenance Shop. Today we're looking at the most typical unit you will see in the field. This is the Nordson ProBlue Adhesive Supply Unit. It's important to know how many hours are on your unit. It's very easy to check the hours on your unit. Walking up to the unit, you hit the service gate all the way to the bike, hit the brake gate, and it'll right away display it. 48,141 hours. It's important to know how many hours are on your unit as we recommend servicing your unit every 2,000 hours to prevent unexpected downtime.
